DETAILED ACTION

Allowable Subject Matter

1. **Claims 1, 4-13, 16-17, 19-21, 22-29 and 32-33** are allowed.

The following is an examiner's statement of reasons for allowance:

With regard to claims 1, 8, 17, 29 and 33: These claims are allowable over the prior art of record because the latter, either alone or in combination, does not disclose nor render obvious an arrayed waveguide grating including an output slab waveguide with pairs of output waveguides coupled to the output slab waveguide and directional couplers or multi-mode interference couplers wherein the primary channel spacing (as defined by applicant) between paired first and second waveguides coupled to the same coupler is different than the secondary channel spacing (as defined by applicant) between the waveguides coupled to different but adjacent couplers, or the pairs of output waveguides having the length relationship stated in the equation of claim 17 or an optical filter having an input and output coupler with an array of three waveguides coupled between them with a waveguide pair coupled to the output of the output coupler wherein the waveguide pair has a length difference adapted to produce a flat spectral output signal, in combination with the rest of the claimed limitations.

With regard to claims 4-7, 9-13, 16, 19-21, 23-28 and 32: These claims are allowable over the prior art of record because they depend from allowable claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
